

SYRACUSE UNIVERSITY

IST 263

Introduction to Front- End Web Development

2019-2020

(3 credits)

Faculty: Bahram Attaie, Assistant Professor of Practice, Information Studies

Administrative Contact: Avinash Kadaji, Associate Director of Information Systems, Project Advance

Combining entrepreneurial methods with real world projects, **IST 263** is an intensive course that covers the construction and publication of websites for the Internet.

Students study and utilize a user-based approach to planning, design, implementation, and management of the websites, all with an entrepreneurial focus. Students become very proficient in HTML, CSS, and PHP, and develop their final projects utilizing a Content Management System (CMS).

After taking the course, every student should have the ability and confidence to design and program a website for a small- to medium-sized business or organization.
